CCRP PATHWAYS TO TRANSFORMATION

UN SUSTAINABLE AND/OR INEFFECTIVE AGRICULTURE

- Siloed, discipline-based research
- Blanket silver-bullet solutions
- Key focus on productivity through external inputs
- Hierarchical power relations

SOCIAL & INSTITUTIONAL MOBILIZATION

Utilize CCRP principles, FRNs, evaluation and learning to fund participatory AEI research in order to generate AEI options by contexts, and AEI knowledge

AEI KNOWLEDGE CO-CREATION & MOBILIZATION

Utilize CCRP Principles, FRNs, evaluation and learning to fund participatory AEI research in order to generate AEI options by contexts, and AEI knowledge

SOCIAL & INSTITUTIONAL MOBILIZATION

Utilize CCRP principles and research and evaluation learnings to strengthen CoPs, inclusive networks, and FRNs, in order to facilitate deeper engagement between farmers, researchers and other actors, and to support the next generation of agricultural innovators for the purpose of applying AEI processes and knowledge

AGROECOLOGICAL SYSTEMS

Collaborative, trans-disciplinary
Responsive to heterogeneity
Horizontal power relationships
R4D and D4R

- Resilient
- Integrated
- Multi-functional
- Improved soil health
- Sustainable farming
- Increased crop productivity
- Adapts to and mitigates climate change
- Provides ecosystem services

FOOD SECURITY

- Food security
- Improved nutrition
- Access to research
- Secure livelihoods
- Equity
- Rural vibrancy

LACK OF ACCESS TO RESEARCH

- Lack of access to research
- Inequality: gender, age, class, ethnicity etc.
- Aging population, migration, rural decline

AGROECOLOGICAL SYSTEMS

- Collaborative, trans-disciplinary
- Responsive to heterogeneity
- Horizontal power relationships
- R4D and D4R

FOOD & AGRICULTURE SYSTEMS

- Resilient
- Integrated
- Multi-functional
- Improved soil health
- Sustainable farming
- Increased crop productivity
- Adapts to and mitigates climate change
- Provides ecosystem services

RESEARCH & DEVELOPMENT SYSTEMS

- Food security
- Improved nutrition
- Access to research
- Secure livelihoods
- Equity
- Rural vibrancy

FOOD SECURITY

- Food security
- Improved nutrition
